
Sailing on the Canary Islands

«First Step» program for ISSA graduated skippers

11.11.2017 - 25.11.2017
25.11.2017 - 05.12.2017

ISSA «FIRST STEP» PROGRAM

Our school provides an excellent opportunity for ISSA graduates to get their «first time» skipper experience in a perfect sailing location of Tenerife, Canary Islands!

You will have a choice of sailing a 50-foot private sailing yacht cruiser Hunter 50 that is equipped substantially better compared to a regular charter sailing yacht. However, if you are a large group of friends, and one yacht is not enough to accommodate all of you, or you would like to have this helpful experience for several «first time» skippers, we would be most happy to arrange a fleet of sails from our local charter company partners!

Your ISSA coordinator will accompany you in your cruise, helping with the daily route planning, weather forecasts and giving you helpful hints about the best sailing practices. You will be debriefed every afternoon/evening to learn about your good practices and to hear what could be possibly improved. He will always be available to help you, warning and advising when you have any doubts or concerns.

We speak English, French, Polish and Russian!

We designed a 10-day route specifically tailored to fully meet your expectations. Please do not hesitate to contact us with any questions at [info@yachtcompany.ru]
